Maintenance (preventive and corrective)
Sample collection (VOC's)
Administrative (reports for IDEM/EPA; data review)
Operations staff (activities related to air stripper)
- **Analytical**
Interceptor/Production wells (contaminated) - VOC's
Influent/Effluent to Air Stripping Towers (3 towers) - VOC's
Chlorine Residual (reagent cost)
Total Coliform (1/interceptor well/month)
Water Quality parameters (pH, temperature, turbidity, Fe, Mn)
- **Maintenance**
Materials for preventive and corrective maintenance
- **Energy**
Air Stripping Towers (3)
Interceptor wells (2)
- **Chemicals (Chlorine)**

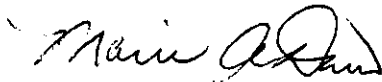

COMMITMENT TO EXCELLENCE

Mr. George Bucklen

Since the electricity costs for Interceptor Wells #1 and #2 were included in the cost of service for the rate case, those charges will not be billed to the Respondents. However, all other associated costs (interceptor wells and air stripping facility) will be billed to the Respondents. These are costs that the City would not have otherwise incurred had the well field not been contaminated.

If you have any other questions regarding the reimbursement costs for the air stripping facility and interceptor wells, please contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Marie A. Davis".
